
City of Federal Way

Recycling Outreach 2010 Summary Report

RECYCLING PROGRAM IMPLEMENTATION ASSISTANCE AND OUTREACH

BUSINESS ASSISTANCE AND OUTREACH

In 2010, the City of Federal Way added embedded recycling of up to two recycling carts per business. Part of the outreach conducted by the hauler to implement this change included door-to-door assessments of businesses to offer the new carts. When businesses needed additional assistance, they were referred to the contractor. This report highlights these follow up visits as well as other assistance provided in 2010.

Container Incentive and Business Outreach

To provide an incentive for businesses starting or improving their recycling program, the City again offered durable recycling containers for any businesses that expanded their current program. This was offered this year in the form of a coupon (Appendix A) that was placed in all Waste Management outreach folders. These folders were given to all businesses in the City of Federal Way. There was a huge response, as a result of this outreach and the coupon. Details of business outreach are shown in Appendix C.

A total of

- 238 Businesses were visited onsite- including Federal Way Commons
- 956 desktide containers (7 gallons) were distributed to businesses
- 11 slim jim containers (5 blue for recycling and 6 green for organics recycling) were distributed to businesses.
- 982 Stickers listing what can and cannot be recycled were distributed to businesses
- 237 business recycling kits were distributed
- 226 businesses started or improved their recycling program.
- It is estimated that outreach this year to small businesses will divert over **5521 cubic yards** of recyclables from the landfill per year.

Stickers listing what can and cannot be recycled were adhered to containers. This year, instead of using a specific City sticker- the contractor had copies of the Waste Management business guidelines photo sheet printed on stickers.

Business that were visited onsite, received a Business Recycling Kit, which included the following items:

- City of Federal Way Recycling Guide
- City of Federal Way Green Recognition Program Application
- Organics recycling information
- Take It Back Network brochure for electronics recycling
- Take It Back Network brochure for fluorescent lamp recycling
- LHWMP hazardous waste management/recycling/disposal information card
- Sample sticker for recycling bin listing what can and cannot be recycled.
- Recycled cardboard pen or pencil with City website and contact information on it.

Federal Way Commons

This year the contractor worked with Federal Way Commons to help improve recycling onsite. Assistance this year included:

- Meeting with facilities head
- Presentation to tenant meeting
- Emails and coordination

Recognition

This year the Third Dimension Salon and Petco corporation joined the Green Works program.

Additional Business Recycling Outreach Items

- Responded to requests
- Updated recognition application for new Green Business program and Business Recycling Guide.
- Coordinated service levels and options with Waste Management
- Assisted with Roll off survey information and recommendations
- Created online survey monkey survey for businesses that may want to provide feedback.

Recommendations for 2011

- Continue to promote embedded recycling program and organics recycling. Possible promotion could include:
 - Send out new business letters in 2011. This was done in 2008 and not in 2009 and 2010. This is a good way to promote the program at little cost
 - Postcards to all businesses. This is usually done, but was not done in 2010
 - Include insert with business licenses or bills
 - Booth at events
 - Newsletter/newspaper articles
 - Presentations to business groups
 - Email newsletters
- Continue to offer business and multifamily recycling assistance.
- Continue to offer container incentive.
- Consider recognition program for multifamily recyclers and continue business program. Choose a “Green Business of the Year” for 2011.
- Possibly partner with other City Departments to cross promote (ie storm water etc.)
- Parks recycling
- Continue to try to work with Commons to increase recycling

SCHOOL ASSISTANCE AND OUTREACH

The City again worked to provide assistance to Federal Way school District. Details are outlined below:

GENERAL

- Worked with Resource Conservation Manager.
 - Wrote a newsletter article for the District newsletter to promote organics recycling.
 - Made signage for composting containers (Appendix B)

NAUTILUS ELEMENTARY

- Met with teacher
- Worked with student council to train them to be cafeteria monitors and to generate a promotion plan to promote composting- including making presentations, posters, announcements etc.
- Proofed Powerpoint presentation and provided comments.
- Met with custodian about new program
- Attended kick off date, made announcements and assisted students with new program.
- Started monitoring program for 3 stations.
- Made lunch announcements/presentations
- Created paper towel signage.
- Results:
 - Now each day approximately 64 gallons of recyclable material and 15 gallons of compostable material is collected- that would have been previously thrown away!
 - For just one week, that adds up to 395 gallons of material or 2 cubic yards per week!
- Estimated **80 cubic yards** of recyclables diverted per year as a result of new program.

TODD BEAMER HIGH SCHOOL

- Met with teacher and Ed Novak in the spring of 2010 about boosting recycling and starting composting in the cafeteria.
- Presented at environmental club meeting on recycling as a membership boosting program.
- Presented to two Ecology classes
- Met with teacher and environmental club in the fall. Assisted with developing an education and promotion program.

TRUMAN HIGH SCHOOL

- Met with principal and conducted mini walk through
- Sent follow up notes and kick off plan
- Emailed periodically to check in.

TWIN LAKES ELEMENTARY

- Met with teacher
- Worked with student council to train them to be cafeteria monitors and to generate a promotion plan to promote composting- including making presentations, posters, announcements etc.
- Met with custodian about new program
- Prepared for kick off of program by making signage, ordering containers and cart coordination and setting up stations.
- Attended kick off date, made announcements and assisted students with new program.
- Started monitoring program for 3 stations.
- Made lunch announcements/presentations
- Results:
 - During the first day of recycling, the lunch recycling rate increased from 0% to 45%!
 - Now each day approximately 32 gallons of recyclable material and 20 gallons of compostable material is collected- that would have been previously thrown away!
 - For just one week, that adds up to 275 gallons of material.
 - Reduced garbage by 80% or 256 gallons per day by recycling. That's about 6 cubic yards per week.
- Estimated **240 cubic yards** of recyclables diverted per year as a result of new program.

KINDERCARE DAY CARE

- Presented to two student groups on recycling and composting.

Recommendations for 2011:

- Continue to follow up with all schools assisted this year and work with additional private schools.
- Continue to assist the District as needed.
- Continue to promote Cedar Grove composting program to schools.
- Continue to work with Ed Novak on adding recycling carts for schools.

APPENDIX A: Coupon for Recycling Containers and Resource Sheet

Business Recycling Resources

Free Recycling Containers

For a limited time, start or improve your recycling program and receive up to 10 desk-side recycling containers!

Contact the City of Federal Way recycling specialist at 206.763.0739 or swilder@wilderenvironmental.com to use this coupon.

*While supplies last
*For Federal Way businesses only

The City of Federal Way wants to help your business recycle!

Contact the City of Federal Way for the following items:

- Free "Business Recycling Kit"
- Stickers for recycling containers listing what can and cannot be recycled
- Onsite recycling assessment
- Education materials to promote recycling to staff

See reverse for resources to improve your recycling program and properly handle unusual materials not included in your recycling or garbage service. Items such as fluorescent tubes and computers are banned from disposal and need to be handled separately.

Remember: Businesses can now have up to two 96-gallon outdoor recycling carts at no cost. Contact Waste Management at 800.592.9995 or wmnorthwest.com/fedway to order this service.
